Luxury Attaché

www.nyconciergeservice.com

Seasoned professionals from the hospitality industry are put through a rigorous training program to make certain they are up to snuff at Luxury Attaché. With a client list made up of worldwide investment banks, family offices and residential buildings, this sophisticated concierge group understands the distinctive needs of their ultra-high-net-worth customers.

The group maintains dedicated teams with specialized areas, such as travel arrangements, home maintenance and event planning, at its main location on E. 25th St., which on-site representatives contact to arrange customer requests.

They maintain affiliate relationships with similarly high-ranked concierge services around the globe to service customers anywhere they may be located. "We have great contacts wherever our clients are," said Jenene Danenberg, CEO and founder of Luxury Attaché.

Services are exclusive to the customers of clients. For instance, to access the service at one of the family offices, a customer must have a minimum of \$30 million in equity. Yet if you're one of the fortunate few, they have a 24-hour turn-around policy and can jump the wait list at many luxury retailers, restaurants and other venues.
